DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 175 is rejected under 35 U.S.C. 102(b) as being anticipated by any one or all of US 4,791,989 (cited by applicant), US 5,076,852, US 4,883,125, and US 4,367,093.

The above references each disclose a method that includes a method of reducing the fluid loss from a cement composition, comprising adding to the cement composition a fluid loss control additive comprising an organic compound and an inorganic compound.

3. Claims 39, 175, 179, and 180 are rejected under 35 U.S.C. 102(b) as being anticipated by US 3,994,852.

US 3,994,852 discloses a method that includes a method of cementing in a subterranean formation comprising the steps of: providing a cement composition comprising a hydraulic cement, water, and a fluid loss control additive, the fluid loss control additive comprising: an acrylamide copolymer derivative; an inorganic compound; and a dispersant; placing the cement composition into the subterranean formation; and permitting the cement composition to set therein. The composition further includes a dispersant.

Allowable Subject Matter

4. Claims 1-38 and 41-90 are allowed.
5. Claims 40, 176-178, and 181-185 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 1-90 and 175-185 have been considered but are moot in view of the new ground(s) of rejection.
